The TPAC Difference

Recognizing the need for more patient-centered health insurance options, a group of Central Ohio physicians decided to look for a solution. As employers themselves, these leaders in the medical community understood that new strategies were needed to control escalating employee benefit costs, while continuing to deliver state-of-the-art care. This prompted them to form The Physicians' ASSURANCE Corporation, or TPAC, a company uniquely positioned as the only health insurance company in Ohio that is owned and led by physicians. Today, TPAC's mission is clear: We offer competitive rates, patient-centered care and pricing transparency.

TPAC's entrance into the marketplace is good news for employers and employees seeking cost-effective health care. This is health care where physicians make decisions based on medical evidence rather than financial criteria. With that in mind, the following points further illustrate what has become known as "The TPAC Difference."

The Physicians' ASSURANCE Corporation
"From those you trust with your health."

- Our service is patient-centered, and because of proximity, it is also accountable. Our home is in Central Ohio. Our physicians and employees live and work in the community. When it comes to community and accountability, TPAC clearly stands out.
- Our unique and transparent approach to premium rates and renewal increases definitely sets us apart from the rest of the industry. All too frequently, premium rate increases are not explained by the insurance carrier, nor are they understood by the employers who pay the hefty premium increases. At TPAC we're committed to developing a long-term, trustworthy relationship with our clients. Competitive and transparent pricing are key components of how we do business.

- We offer a comprehensive, competitive direct network in our nine-county Central Ohio service area. It is complemented by a "travel" or "wrap" network that offers in-network benefits nationwide.
- We offer the latest technology, including the ability to fill out applications online and make eligibility changes electronically. Administration is handled here in Central Ohio.
- Finally, we've assembled a superior management team. Our team combined has well over 100 years of experience in the health-care industry. We have seen the industry's highs and lows, and we will use this knowledge and expertise to offer you high-quality, well-managed health-care options.
